To answer the following submitted questions:

1. Regarding the site visits, do we need to make arrangements with you for each location?
What do we reference for locations and quantities of new and relocated AP.s at each site?

In regards to the site visits prior to the deadline of the RFP, what we have done in the past for contractors who are not familiar with our schools is to schedule a walk-through of two or three schools. In regards to the locations and quantities of new and relocated access points at each site, the District has already done a walk-through of each school to determine where new access points are to be installed as well as which existing access points are to be relocated. This information will be provided to the contractor who is awarded the RFP during a pre-install walk-through of each school with a representative of the District.
